

Who We Are

Joz Branok was founded based on our extensive experience with clients and patients in the healthcare industry.

As we worked with hundreds of people in the state of Florida, we recognized a need amongst consumers for professional referral services regarding ALF (Assisted Living Facilities). It is our mission to build and establish our ALF referral business, with a commitment to professional demeanor, quality, and integrity.

What is An ALF (Assisted Living Facility)?

An Assisted living Facility is designed for individuals who require assistance with everyday activities such as meals, medication management, bathing, dressing and transportation. Some residents in an ALF (Assisted Living Facility) may suffer from memory disorders including Alzheimer's, dementia, or they may need help with mobility, incontinence or other challenges. These patients or residents require 24-hour supervised care with meals, activities and health management. We at Joz Branok can provide you with all the different professional options and support for the long-term care, the housing, and the health care, for your family member. Joz Branok will help you develop an individualized plan based on Quality of life, Standards of care, and Cost and value.

We will find the ALF that is right for you and your loved one!
